

Internet and Web Systems 1

Week 4 Report

Tasks Achieved:

1. I started working on the developing an attractive index page for the web app.
2. I want to create something using web graphics to make it for interactive for the user.
3. I decided to use three.js for the purpose as I had learnt about it in my Computer Graphics class.
4. I was able to develop a table form the books. The file contains consists of 159 elements, each element has the following features;
 - The novel title at the centre.
 - The author of the novel at the bottom of the title.
 - The genre of the novel below the author of the novel.

Problems and Solutions:

1. One of the problems I faced was that I had lost a touch with three.js and I had to reverse though its basics to start working on it again.
